

Microsoft Sentinel

Defending Today, Securing Tomorrow

Welcome to Ingentive, your trusted partner for maximising the potential of Microsoft Sentinel—a cloud-native solution for intelligent cloud security analytics and threat intelligence. With our extensive experience, we unify and enhance your cloud security measures, providing a comprehensive view of your operations. Paired with Microsoft Sentinel's advanced capabilities, our expertise empowers clients to effectively combat sophisticated cyber threats, ensuring a robust defence in today's evolving cybersecurity landscape.

At Ingentive, we go beyond deployment—we collaborate closely with clients to tailor Sentinel to their unique needs. Our proactive approach involves continuous monitoring, threat hunting, and responsive strategies, ensuring a dynamic defense against emerging threats.

Why Ingentive?

At Ingentive, our expertise extends beyond unleashing the full potential of Microsoft's business applications, orchestrating complex Azure deployments, and navigating the intricacies of Microsoft Modern Workplace and Custom Coding.

What sets us apart? Our unwavering focus on infusing every solution with the transformative power of AI, all while prioritising the paramount importance of cybersecurity.

"It feels like the future of this tool is in safe hands with Ingentive."

Sam Crabb, Manager of People & Culture

Zero Trust

We implement a "Defence in Depth" strategy, which layers security measures across your infrastructure, bolstering your defences at every level. We embrace the principles of "Zero Trust," where trust is never assumed, and rigorous identity management plays a pivotal role.

Microsoft Sentinel is chosen for its cloud-native intelligence, offering advanced threat detection, unified security analytics, and seamless integration within the Microsoft ecosystem. With machine learning and AI capabilities, it provides a proactive defense against evolving cyber threats. The platform's scalability, flexibility, and centralised security management make it a valuable asset for organisations aiming to enhance their cybersecurity.

Ingentive are globally recognised with six Microsoft awards

Over the last four years Ingentive has been recognised by Microsoft with six global awards including winning the inaugural award for Diversity and Inclusion partner of the year.

Common Challenges

Organisations without Microsoft Sentinel encounter challenges in timely threat detection and response, including a fragmented view of security data, missed opportunities for collaborative defense within the Microsoft ecosystem, vulnerability to evolving threats, and limitations in scalability and centralised security management.
