

## Digital Transformation Consultant

Permanent

Hybrid- Travel to London as well as SW England is required as part of this role

### About Us

At Ingentive, we believe every teammate is a representative of our business and its values. As a leading Microsoft Elite Partner, we are passionate on delivering innovative Microsoft solutions that improve the way that people work. The advancements in the Microsoft Power Platform products allow us to help our clients advance at a rate previously unheard of. We use our technical knowledge, passion for our clients and strong proven methodologies to make sure we can always deliver the best results.

We work with a varied range of clients and partners to bring leading-edge solutions to organisations delivering optimal return on investment. To us every client problem is heard and understood by our entire team, and that's how we deliver tailored solutions with true passion and consideration. Our success is due to our amazing teammates working across the organisation, bringing continual improvement and innovation to everything they do, and accelerate towards self-sufficiency. We do this by providing client-side incubation support with ready-made out-of-the box capability supported by smart, execution-focussed practitioners.

### The Role

We are looking for a Digital Transformation Consultant. You will play a crucial part in advising and guiding our prospects and clients on the adoption of innovative Microsoft technologies including Power Platform, Dynamics 365 Customer Engagement (CE), and Microsoft 365 Copilot. As a key player in our organisation, you will also drive transformative projects that not only meet but exceed client expectations.

### Essential Expertise:

- Distinguished experience in technical or consulting roles, with deep expertise in Microsoft Business Application.
- Proven record of leading successful, large-scale digital transformation initiatives
- Mastery of Microsoft Power Platform, Dynamics 365 Customer Engagement, and Copilot
- Exceptional analytical and critical thinking skills, with the ability to translate complex technical concepts into business value.
- Outstanding communication and presentation abilities, capable of engaging and inspiring C-level executives

### Desirable Expertise:

- Software development experience in .NET, Visual Basic, PowerFX
- Knowledge of Dynamics 365 Business Central and Dynamics 365 Finance & Supply Chain Management
- Prior experience in strategic roles at Microsoft or other leading tech companies
- Relevant certifications in Microsoft technologies or digital transformation methodologies

### **Responsibilities:**

Responsibilities include but are not limited to:

- Craft visionary digital transformation roadmaps that align with clients' long-term business goals
- Architect robust, scalable solutions leveraging the full potential of the Microsoft ecosystem.
- Design and lead inspiring digital transformation workshops that ignite client enthusiasm.
- Stay at the cutting edge of technology trends, bringing fresh insights to client engagements.

### **Teammates' benefits:**

- **Bonus Schemes**
- **Life Assurance**
- **Private medical cover**
- **Group income protection**
- **Great Company Pension**
- **Enhanced Sick Pay**
- **Enhanced Family Leave Pay**
- **Volunteering Leave**
- **Teammate recognition scheme**
- **Loyalty award scheme**
- **24/7 access to EAP including Wisdom AI app**
- **Access to Bright Exchange Online marketplace**
- **Remote working with the option to work from our Central London Office**

Successful applicants must have the right to work in the UK and a basic DBS check is required for this position. Ingentive are committed to equality of opportunity, diversity and inclusion.

We welcome applications from all suitably qualified candidates. As part of our commitment to diversity and inclusion, we will provide reasonable adjustments during the recruitment process to ensure equal access to applicants with disabilities. Please contact us about your needs so that we can discuss these with you to make sure that suitable adjustments are made, where possible.
